

## Carbon Offset Project Types and Categories (2018)\*

Project Category	Project Type
<b>Agriculture</b>	Fertilizer - N20
	Grassland/rangeland management
	Livestock methane
	No-till/low-till agriculture
	Rice cultivation/management
	Sustainable agricultural land management
	Other - Agriculture
<b>Chemical Processes/Industrial Manufacturing</b>	Nitric Acid
	Ozone-depleting substances (Article 5)
	Ozone-depleting substances (US based)
	Carbon capture and storage
	Coal mine methane
	Other - Chemical Processes/Industrial Manufacturing
<b>Energy Efficiency/Fuel Switching</b>	Energy efficiency - community-focused (targeting individuals, communities, etc.)
	Energy efficiency - industrial-focused (targeting corporations)
	Fuel switching
	Waste heat recovery
	Other - Energy Efficiency/Fuel Switching
<b>Forestry and Land Use</b>	Afforestation/reforestation
	Agro-forestry
	Avoided conversion
	Improved forest management
	REDD - Avoided planned deforestation
	REDD - Avoided unplanned deforestation
	Soil carbon
	Urban forestry
	Wetland restoration/management
	Other - Forestry and land use
<b>Household Devices</b>	Clean cookstove distribution
	Water purification device distribution
	Other - Household Devices
<b>Renewable Energy</b>	Biogas
	Biomass/biochar
	Geothermal
	Large hydro
	Run-of-river hydro
	Solar
	Wind
	Other - Renewable Energy
<b>Transportation</b>	Transportation - private (cars/trucks)
	Transportation - public (bikes/public transit)
	Other - Transportation
<b>Waste Disposal</b>	Landfill methane
	Waste water methane
	Other - Waste Disposal

\*As defined by Ecosystem Marketplace. Please note that we modified our categorization of project types and categories between 2017 and 2018.

## Carbon Offset Project Types and Categories (pre-2018)

---

Project Category	Project Type
<b>Energy Efficiency/Fuel Switching</b>	Energy efficiency - community-focused (targeting individuals/communities/housing/campuses)
	Energy efficiency - industrial-focused (targeting corporations/industrial processes)
	Fuel switching
	Waste heat recovery
<b>Forestry and Land Use</b>	Afforestation/reforestation
	Agro-forestry
	Grassland/rangeland management
	Improved forest management
	No-till/low-till agriculture
	REDD - Avoided planned deforestation
	REDD - Avoided unplanned deforestation
	Rice cultivation/management
	Soil carbon
	Sustainable agricultural land management
	Urban forestry
	Wetland restoration/management
<b>Gases</b>	N20
	Ozone-depleting substances (Article 5)
	Ozone-depleting substances (US based)
<b>Household Devices</b>	Clean cookstove distribution
	Water purification device distribution
<b>Methane</b>	Coal mine methane
	Landfill methane
	Livestock methane
	Waste water methane
<b>Renewable Energy</b>	Biogas
	Biomass/biochar
	Geothermal
	Large hydro
	Run-of-river hydro
	Solar
	Wind
<b>Other</b>	Not specified
	Other
