

International Incoming Wire Instructions

Use these procedures for wires coming from an international bank outside the US

For International Wires sent in USD

To ensure proper routing and delivery of funds, be sure all fields are used when sending international wires. Missing or inaccurate intermediary details can cause posting delays, returned wires or even loss of funds.

SWIFT Field Tag	SWIFT Field Name	SWIFT Field Input
56A	Intermediary Bank Swift	WFBIUS6S
	Intermediary Bank Name & Address	Wells Fargo 420 Montgomery St San Francisco, CA 94104
57A	Beneficiary ABA (Be sure to include //FW)	//FW056004445
	Beneficiary Bank Name & Address	United Bank VA 1185 Fairfax Blvd Fairfax, VA 22030
59A	Beneficiary Account	
	Beneficiary Name & Address	

United Customer Account Number (omit leading zeroes)

United Customer Name and Address (No PO Boxes)

For International Wires sent in Foreign Currency

Customers may receive international wires in a foreign currency; however, they will be converted to USD at the market rate and deposited in USD to their United account.

Contact the Wire department for special instructions. We will need to know what country the funds are being sent from, and what currency they are being sent in.
