To the management of
Mandra forestry Liberia Limited
Gbalawin, Wacaba Statutory District
Sinoe County, Liberia

Reference: Letter Of Moratorium on Mandra's Operation .

Dear Management:

Greetings !

The community forest management Body of Sewacajua community forest is pleased to order an immediate halt to the entire operations of Mandra in the Sewacajua community forest.

The SCFMB's action is based on the following counts and reasons:

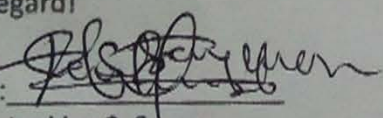

1. Failure of Mandra to notify SCFMB on the recent short down of operations and disregarded on going communities road projects.
2. Failure of Mandra to begin the construction of four schools in selected communities as agreed in count 9, A B and C of the third party agreements.
3. Failure of Mandra to complete the pit-latrines and hand pumps earmarked in the third party agreement.
4. Failure of Mandra to deposit scholarship fees for 2019-2020 academic years amongst other things.

The SCFMB wishes to uncompromisingly inform the management of mandra of a one month or 30 days automation to comply with the above listed counts, as Mandra failure will lead to a dispute settlement that will involve the FDA and Relevant authorities, and subsequent termination of the third party and social agreement signed between Mandra and the people of Sewacajua.

The SCFMB hope that it's concern will be given due urgency and consideration within the time set herein.

Best Regard!

Signed:

Jenkins S. Saywon
Secretary General SCFMB
