

**REF:MD/163/2017/7**

December 15, 2017

Madam Anyaa Vohiri  
**Executive Director**  
Environmental protection Agency (EPA)  
5<sup>th</sup> Street, Sinkor  
Monrovia, Liberia

**RE: LETTER OF ATTESTATION ON BEHALF OF EURO LIBERIA LOGGING COMPANY**

Dear Madam Vohiri:

The Management of the Forestry Development Authority (FDA) extends compliments and writes to inform you that the Management of Euro Liberia Logging Company, Operator of FMC-F in Grand Gedeh and River Gee Counties, has been unable to engage in logging activities since 2015 due to deplorable road conditions between the concession area and the Port of Greenville.

As the 2017/2018 logging season commences, Euro Liberia Logging has to submit Environmental Permit from EPA, a requirement that must be met before an Annual Harvesting Certificate can be issued for the resumption of logging activities in the contract area, FMC-F.

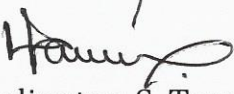

Our Management therefore officially issues this **Letter of Attestation** that Euro Liberia Logging Company has not conducted any logging operations in the contract area since 2015, a situation that has proven difficult to carry out Environmental Audit in the contract area.

In view of the foregoing, we request that you provide any assistance to the Management of Euro Liberia Logging Company that will enable them resume logging activities during the 2017/2018 logging season.

Please accept the sentiments of high esteem as we collaborate to ensure a transparent and functional logging sector in Liberia.

Kind regards.

Sincerely yours,

Darlington S. Tuagben
