Subject: **Report on the Review of Geblo 2021/2022 Annual Operation Plan.**

Date: March 24, 2021

The Technical Review Committee set up by the Management of the Forestry Development Authority (FDA), comprising various Departments, is pleased to extend sincere sentiments and also submit to your office the report on the Revision of **2021/2022 Annual Operation Plan of Geblo Logging Company** Following a thorough scrutiny of the Document, it was observed that the basic requirements enshrined in the Guidelines for Forest Management Planning in Liberia, and the Revised Code of Forest Practices were met.

Therefore, we recommend the approval of the AOP in favor of **Geblo Logging Company** having met all requirements.

Please see attached the Review Committee Report.

Introduction

A joint Technical Committee comprising of **Commercial Department, Community Forestry Department, Conservation Department, and Research and Development Department (R&D)** of the Management of the Forestry Development Authority (FDA) reviewed the **AOP** submitted by Geblo Logging Company located in Grand Gedeh and Sinoe Counties. This plan is the prerequisite for the issuance of harvesting Certificate to forest contract holders, all required checklists as provided for in the Guidelines for Forest Management Planning in Liberia are complied with.

Objective

The Objective of the review is to ensure that this plan meets the requirements of the Guidelines, for Forest Management Planning in Liberia and the Amended Code of Forest Harvesting Practices.

Methodologies

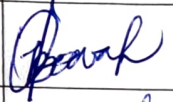

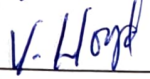

- Checked the quantity of information by comparing each Chapter, Map, and Table with the Amended Code of Forest Harvesting practices and the Guidelines for Forest Management Planning in Liberia.
- Cross checked the accuracy of information with the operation Chain of Custody system and Legality Verification status provided in the Liber Trace.
- Comparing the harvesting of blocks to ensure its being in line with the Annual Operational Plan.

Observation

The joint Technical Review Committee observed that this plan meet the criteria set forth in the Guidelines for Forest Management Planning and the Ten Code Regulation. Additionally, rectification on maps verification was done by GIS as required by the Template and Guidelines for Forest Management Planning.

Therefore, the joint technical review committee recommends that the **Geblo Logging Company** be approved.
