# **Responsible Purchasing Policy** A Solution to CSR & Forest Protection

Greenpeace/LIU Bing 2008.06.18/19 Beijing

### Key Points :

- □ What is a RPP of Timber?
- **Why we need a RPP for timber?**
- Timber Standard: The benchmark for RPP
- □ How to make a RPP?
- Our work

RPP (Responsible Purchasing Policy), is an environmental-friendly procurement policy adopted by the timber companies having good will to demonstrate social responsibility, through which they can keep their timber business away from illegal timber and destructive timber and only buy timber from good management forests.

**Timber Principle** : what timber standard the company recognizes and implements .

Purchasing Standard : what criteria the timber product of a company procurement should reach.

- **Application Scope :** which timber products the RPP should apply to.
- Purchasing Goal : the goal of the company's responsible purchasing plan, i.e, by 2010 the company will only purchase FSC timber product.
- Action Plan : the plan of what actions and when the company will take, according to the purchasing goal of the RPP.

### RPP and global forest protection

#### RPP and company CSR

## GREENPEACE 绿色和平

**<u>Timber Standard</u>** is a benchmark for making and implementing a RPP. It will tell buyers what timber is considered acceptable and what is not.

**Known Source Timber** 

-Not Acceptable

Unknown Source and Illegal Timber -Reject

#### **Sustainable Timber**

is timber coming from well-managed forests which meets the requirements of principles of sustainability. Sustainable Timber is the top category of this Timber Standard, We strongly advise corporations to adopt purchasing Sustainable Timber as the final goal of their Responsible Purchasing Policy on timber.

#### **Transition Timber Moving Towards Sustainable**

At present, some forestry operations are taking credible steps to move quickly towards achieving FSC Forest Management certification. Relevant certifiers and third party organizations take steps to ensure these forests will achieve this goal within a few years, through having adopted an action plan with concrete measures identified to reach this goal. We identify the timber from these kind of forestry operations to be Transition Timber Moving Towards Sustainable.

Known Source Timber

-Not Acceptable

Unknown Source and Illegal Timber -Reject

#### Known Legal Source Timber

This is timber that has been independently confirmed as being 100% from a known legal source. The definition of legality needs to be consistent with the definition of Illegal Logging.
