FOREST SITUATION

COMMUNITIES CLASIFICATION

LEVEL	CHARACTERISTICS
I	Communities with forest but without Manageable Forest Plan, therefore they don't take advantage of it.
II	Communities with a Manageable Forest Plan but a third figure takes advantage of it.
III	Communities which take direct advantage of the forest. They own a Communal Forest Enterprise and trains their people but they don't develop any industry. They only sell uncut timber.
IV	Communities which besides of using their forest directly, and have their own Communal Forest Enterprise. They also have their own industry (at least produce and sell sawed timber).
