Illegal logging is also a huge problem in Honduras.

Up to 85% of timber production is believed to be illegal.
Illegal Logging – Pine Forest
Filippo de Gatto Report

Rango aproximado: 350,000 – 600,000 m³
“This suggests the main producers are exporting 50% more than they are reporting to the government.”
• Highest Deforestation Rate in the World
  • Production 85% illegal
  • Half the exports are illegal

• Do you want to purchase wood products from Honduras?
HONDURAS

Just now learning about FLEGT and the US Lacey Act

Certification looks like a good option for the community managed forest areas in the broadleaf forest
