

Social Impact Assessment (SIA) of REDD+ Projects - Training Workshop

10 to 12 August, 2010

Kentmere Hotel, Nairobi, Kenya

Organised by Forest Trends and the World Agroforestry Centre (ICRAF) with the support of UNDP-GEF

Objective

This workshop is designed for the developers of forest carbon projects seeking validation and verification under the Climate, Community & Biodiversity (CCB) Standards or other multiple benefit standards. The goal of the workshop is to provide project developers with the necessary understanding and tools to allow them, with appropriate advisory support, to develop a detailed social monitoring plan that will meet the 'community' related criteria in the CCB Standards. The workshop is based on the "Social and Biodiversity Impact Assessment Manual for REDD+ Projects" (Version 2) to be published by CCBA and Forest Trends.

The workshop facilitators are Dr Michael Richards, Dr Tuyeni Mwampamba and Sarah Richards.
