Certification: A Tool to Address Illegal Logging

“Anybody supplying the U.S. market from regions where there is a significant risk of illegal harvesting or wood trading now has a strong incentive to demand independently certified wood.”

- 2009-2010 UNECE/FAO Forest Products Annual Review

Objective 13

Avoidance of Controversial Sources including Fiber Sourced from Areas without Effective Social Laws.

- Performance Measure 13.1. Program Participants shall avoid controversial sources and encourage socially sound practices.
- Indicators address risk related to
 - workers' health and safety;
 - fair labor practices;
 - indigenous peoples' rights;
 - anti-discrimination and anti-harassment measures;
 - prevailing wages; and
 - workers' right to organize.

SFI Policy

- SFI developed policy in 2008 – designed to consider the full set of operations of program participants.
 - *“SFI Inc. will not license any person or entity to use SFI’s trademarks or labels, and SFI may revoke any license previously granted, if the proposed licensee or an Affiliate of the licensee has been found to have engaged in Illegal Logging by a government authority in the jurisdiction where the logging occurred...”*
 - *“...or if the evidence available to SFI supports a conclusion that...the proposed licensee or an Affiliate of the licensee has engaged in a pattern of Illegal Logging...even if the licensee has not been subject to government enforcement actions...”*
